SUMMARY

Information Technology undergraduate at Gujarat Technological University with a strong foundation in Python and machine learning concepts. Hands-on experience in building AI/ML applications including face-based user authentication and de-duplication systems. Passionate about applying machine learning to real-world problems, quick to learn, and motivated to grow as an AI/ML Engineer.

PROFESSIONAL EXPERIENCE

Jr. Web Developer

Direct Leads - Ahmedabad, 02/2023 - 09/2023

- Developed and customised responsive websites using HTML, CSS, JavaScript, Bootstrap, WordPress, Elementor, and Divi Builder.
- User experience, leading to higher client satisfaction and engagement.

Data Analytics and Machine Learning Intern

InfoLabz IT Services Pvt. Ltd. - Ahmedabad, 05/2025 - 06/2025

- Performed data analysis and visualisation on CSV datasets using Python (NumPy, Pandas, Matplotlib) to support business decisions.
- Implemented machine learning models for prediction and parameter estimation, enhancing insights through analytical reporting.

Artificial Intelligence and Machine Learning Intern

Intelivita Private Limited - Ahmedabad, 01/2026 - Present

- Working on AI/ML model development and integration using Python, focusing on real-world problem solving.
- Assisting in building and evaluating machine learning solutions, including data preprocessing and model optimization.

PROJECTS

Face De-duplication & Face-Based User Authentication(AI/ML)

- Built an AI-based system to prevent duplicate user accounts using facial recognition and face embedding comparison.
- Applied machine learning techniques for similarity measurement and accurate identity verification.

Data-Driven Customer Segmentation using ML

- Performed end-to-end data analysis on mall customer data, including cleaning, EDA, and visualisation to uncover behavioural patterns.
- Built and evaluated a K-Means clustering model to segment customers and generate insights for targeted, data-driven marketing.

Movie Recommender System Using Python and Streamlit

- Developed a web-based movie recommendation app using Python and deployed it with Streamlit for personalised suggestions.

SKILLS & COMPETENCIES

- Python & ML: Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch
- LLMs & AI Systems: OpenAI(GPT-4/4-turbo), Gemini, Prompt Engineering, RAG, Embeddings, LangChain, Vector Databases (FAISS)
- Backend & Deployment: FastAPI, Flask, REST APIs, Streamlit, API Integration, Model Deployment

EDUCATION

Bachelor of Information Technology
Gujarat Technological University, Ahmedabad
(Ongoing)

09/2023 - Present Ahmedabad, India

Diploma of Information Technology
Gujarat Technological University, Rajkot

08/2019 - 06/2022 Rajkot, India
